

# VIP 2.0

By FaithX

## *A Vitality Improvement Program For Individual Judicatories and Congregation Cohorts*

### **What is the VIP 2.0?**

**Two years ago, in June of 2021, FaithX began our Vitality Improvement Program for Small Congregations** (otherwise known as VIP) an innovative pilot project designed to bring powerful vitality improvement tools to the congregations with an average worship attendance of 75 or less at a reasonable cost and funded in part by a generous grant from Trinity Wall Street Philanthropies. As the VIP project is now entering its the third and final year, we continue to work with five participating dioceses and more than 20 of their congregations. Realizing just how much we have learned about what it takes to encourage and nurture vitality and sustainability in partnership with local churches and their judicatories, we want to build on all we have learned and share it the wider church.

**And so we have created VIP 2.0 to do just that.**

**VIP 2.0 will be an 18-month partnership and will have two tracks.**

1. **Track One, much like our current VIP, will be for diocesan and other judicatory cohorts of five or more churches.**
2. **Track Two, will be a hybrid congregation-based model open to cohorts of churches from across the country.** Individual churches can apply and be accepted into the cohort, which will commence when we have five or more churches ready to make the 18-month commitment.

### **When Will VIP 2.0 Start?**

**We hope to begin signing up judicatories and congregations for Track One and Track Two in fall 2024.** More information about start dates and application process will be forthcoming.

### **How Much Will VIP 2.0 Cost?**

We are still finalizing the fee structure for VIP 2.0 but we believe judicatories and congregations will find it quite affordable.

### **How can we find out more?**

If you like more information about VIP-2.0 start dates and cost as it becomes available, please contact us at [info@faithx.net](mailto:info@faithx.net).
